

SwineX¹_{TM}

Whole Egg Specialized Proteins For Water Delivery Systems

What?

SwineX¹_{TM} is a proprietary blend of whole egg specialized proteins designed to be administered through a metered water delivery system.

When?

SwineX¹_{TM} is intended to be administered through water to PEDV challenged pigs in the nursery and grow-finish stages¹.

Why?

SwineX¹_{TM} is specifically formulated to introduce whole egg specialized proteins to pigs. The “Porcine-Specific” whole egg proteins used have been researched and selected to ensure maximum usability and benefits for stressed pigs¹.

Recommended Use¹

Administer through a clean*, metered water delivery system. Use for a minimum of 3 days consecutively to help ensure even consumption throughout the group.

**Flush water lines before first use and every 3 days during consecutive use.*

LOW STRESS: 3 ml per head, per day for 3 - 7 days.

HIGH STRESS: 5 ml per head, per day for 3 - 7 days.

¹Not intended to diagnose, treat, cure or prevent any disease.

Packaging

1 gallon bottle or 5 gallon pail

Storage/Shelf Life

Keep closed in original packaging and refrigerate 38F - 48F.

DO NOT FREEZE. Expires 90 days from date of manufacture.

Guaranteed Analysis

Crude Protein (min)	6%
Crude Fat (min)	4%
Crude Fiber (max)	1%
